**LOCUM GP REQUIRED 3 SESSIONS PER WEEK**

Initially to cover sickness for 2 months and then for maternity cover of up to 9 months

- Training Practice
- 5 Partners, 3 Salaried GPs
- 9200 patients
- Experienced nursing team doing chronic disease management
- GP/nurse triage of urgent appointment/visit requests

Able to be flexible with timings of sessions but would prefer a Wednesday for the maternity locum cover (the more urgent short term part could be covered much more flexibly).

We usually see 16 patients per session and would prefer the locum to do some home visits at lunchtime.
